

# Ananda Regyawan Prayoga

Ponorogo, Indonesia | [prayogaananda2002@gmail.com](mailto:prayogaananda2002@gmail.com) | +62 859 4640 0784 | [Linkedin](#) | [Github](#)

Informatics graduate with hands-on experience in frontend and full-stack web development across academic, freelance, and project-based environments. Skilled in building responsive and user-friendly web applications using React.js, Flask, JavaScript, and MySQL, with experience in REST API integration, Docker, and VPS deployment. Proven ability to develop scalable interfaces, optimize website performance, and deliver functional digital solutions through strong problem-solving, adaptability, and collaborative teamwork.

## EDUCATION

Jenderal Achmad Yani University

Sept 2021 – August 2025

Bachelor's Degree in Informatics | IPK 3.38/4.00

Yogyakarta, Indonesia

- Academic Projects :
- Inventory & Room Borrowing Information System (Undergraduate Thesis)  
Tech : Python (Flask), MySQL, HTML, CSS, JavaScript, REST API  
Developed a full-stack web-based inventory and room borrowing management system with authentication, approval workflows, and responsive interfaces to optimize administrative efficiency and data management.
- Sentiment Analysis Dashboard for Kereta Api Indonesia (Freelance Project)  
Tech : Python (Flask), HTML, CSS, JavaScript, NLP  
Built an interactive sentiment analysis dashboard using NLP to process, classify, and visualize customer feedback data into actionable insights for service evaluation and decision-making.
- Web-Based Livestock Disease Diagnosis System (Freelance Project)  
Tech : Python (Flask), JavaScript, JSON, PDF Generation  
Created a web-based livestock disease diagnosis platform with symptom-based analysis, secure authentication, session management, and automated PDF report generation for efficient diagnosis documentation.
